# DHANANJAY TRIPATHI

**Systems Administrator | Cloud Engineer | DevOps Engineer**

Naigaon East, Mumbai, India | +91-9867139508 | dhananjay.tripathi9799@gmail.com
GitHub: github.com/dhananjay-tripathi | Portfolio: https://dhananjay-git99.github.io

## PROFESSIONAL SUMMARY

IT infrastructure professional with 6+ years of experience in system administration, cloud infrastructure (AWS), deployment automation, and technical operations. Skilled in Linux and Windows administration, Bash and Python scripting, Docker containerization, and core AWS services (EC2, VPC, IAM, S3, CloudWatch). Proven record of automating deployments, maintaining up to 99% uptime, and reducing manual deployment effort by 40%. Seeking a System Administrator, Cloud Engineer, or DevOps Engineer role.

## CORE COMPETENCIES

Systems Administration: Linux (Ubuntu Server), Windows 10 / Windows Server, Active Directory, user and access management, OS patching, system troubleshooting

Cloud (AWS): EC2, VPC, IAM, S3, CloudWatch, networking, monitoring and alerting

DevOps and Automation: Bash, Python, Docker, NVIDIA-Docker, CI/CD concepts, deployment automation, infrastructure monitoring, Git / GitHub

Databases: SQL (query writing and optimization), MongoDB

Tools and Monitoring: CloudWatch, PuTTY, WinSCP, log analysis, SLA-based ticketing (ITSM)

Support Operations: SOP development, UAT / QA testing, cross-time-zone support

## PROFESSIONAL EXPERIENCE

### Quidich Innovation Labs Ltd. — Mumbai, India

*Technical Support Engineer 2 | Apr 2024 - Present*

- Administer Windows and Linux production environments for Dev and IT teams, maintaining 99% uptime across 60+ servers.
- Built Bash and Python automation scripts for system setup and software deployment, reducing manual deployment time by 40% per release.
- Deploy and maintain containerized workloads using Docker and NVIDIA-Docker to support concurrent projects and pipelines.
- Support MongoDB and Python runtime environments for production pipelines.
- Monitor system health and analyze logs to resolve incidents proactively and minimize downtime.
- Authored SOPs and technical documentation, reducing onboarding and troubleshooting time for technical and non-technical teams.
- Performed end-to-end QC testing before releases, reducing post-deployment defects and rollbacks by 60%.
- Delivered SLA-based technical support across multiple time zones, maintaining 90% SLA compliance.

### Elevate-K12 — Mumbai, India

*Technical Support Engineer 2 | Oct 2021 - Apr 2024*

- Administered AWS-hosted media servers on Ubuntu, maintaining 90% uptime through proactive monitoring and routine maintenance.
- Diagnosed and resolved server issues through log analysis using PuTTY and WinSCP, improving reliability and reducing recurring incidents.
- Wrote and optimized SQL queries for daily reporting and performance dashboards.
- Handled 250+ client support tickets per month via chat, email, and remote tools; contributed to UAT and QA testing cycles.

### Impact Infotech Pvt. Ltd. — Mumbai, India

*Desktop Support Engineer | Nov 2018 - Oct 2021*

- Installed, configured, and maintained Windows 10 systems, including domain integration and OS patching for 500+ endpoints.
- Delivered desktop software support and coordinated with hardware vendors to minimize downtime.
- Monitored and supported network connectivity, escalating advanced issues to specialized teams.
- Maintained IT asset tracking, ensuring compliance with licensing and warranty requirements.
- Mentored junior support staff, promoting knowledge sharing and reducing ramp-up time.

## EDUCATION

*B.Sc. Information Technology — Mumbai University | June 2023 | GPA: 8.6 / 10*

## CERTIFICATIONS & TRAINING

- AWS Certified Cloud Practitioner (add certificate and date here)
- Docker, Linux Administration, and CI/CD fundamentals (add completed courses and dates here)

## TECHNICAL SKILLS

AWS (EC2, VPC, IAM, S3, CloudWatch) | Linux | Windows Server | Active Directory | Bash | Python | Docker | NVIDIA-Docker | MongoDB | SQL | Git | GitHub | CI/CD | Deployment Automation | Monitoring & Logging | PuTTY | WinSCP | SLA / ITSM | UAT / QA
